 - Lack of one process owner responsible for the production of all Naval Aviators
- ★ NAPPI Reorganization Changes
 - CNATRA takes ownership of NAPP and Chairmanship of NAPT
 - Re-orient Cross Functional Teams along pipeline flow
 - USN FRSs TACON to CNATRA (OPCON/ADCON to TYPEWINGS)
 - N78 develop requirements/monitor progress
- ★ What does not change
 - Senior Level Management (NAPT)
 - Focus on TTT and Production
 - Metrics (web-based vice excel sheets)
 - USMC relationship (ASM/ATB interface with CNATRA/N789)
